Release Notes

Version 3.0.0.0

General

Initial version

Version 3.0.0.1

Desktop

Functionality Components Version changed to 3.0.0.1 for Crescendo Desktop compatibility.
InterStaff.Desktop.exe

Login

Problem It was not possible to login with an account with a lowercase password.
Passwords were automatically converted to uppercase.

Workaround Solution Components -
Changed in the login provider
InterStaff.Desktop.Login.DefaultLogin.dll

Publisher

Functionality Components Added a new link on the publisher screen to open the created start page.
Publisher\InterStaff.Desktop.ClickOnce.Publisher.exe

Version 3.0.2

Desktop

Functionality Components Version changed to 3.0.2 for Crescendo Desktop compatibility.
InterStaff.Desktop.exe

Version 3.0.3

Desktop

Functionality Components	Version changed to 3.0.3 for Crescendo Desktop compatibility. InterStaff.Desktop.exe
Functionality Components	Connection string now displayed in debug information window. InterStaff.Desktop.exe

Crescendo Publisher

Problem	Start url's with a dash (-) were not accepted.
Workaround	-
Solution	Validation fixed.
Components	Interstaff.Desktop.ClickOnce.Publisher.exe

Database Objects

Problem	When the Crescendo Application server is configured to use ODBC, the Portal could not logon.
Workaround	-
Solution	The detection of the type of connection is modified.
Components	InterStaff.Remoting.Objects.dll
Problem	Logging did not work properly
Workaround	-
Solution	Logging now works correctly. After enabling/disabling the logging, the service needs to be restarted.
Components	InterStaff.Remoting.Objects.dll

Log viewer

Problem	Log files exported from the document manager could not be displayed via the Log viewer.
Workaround	-
Solution	A new view is created for the log viewer for loading external log files.
Components	InterStaff.Desktop.Plugins.Logviewer.dll

Components

Functionality Components	Connection string now displayed in debug information window. InterStaff.Desktop.exe
---------------------------------	--

Crescendo Portal Service Configure

Functionality New user interface for Crescendo Portal Service Configure.
Components InterStaff.Remoting.Server.Configure.exe

Functionality Ability to display a list of connected clients
Components InterStaff.Remoting.Server.Configure.exe

Version 3.0.4

Desktop

Functionality Version changed to 3.0.4 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

Crescendo Masters

Functionality New application: Matching Master Selector
Components InterStaff.Desktop.Plugins.Crescendo.dll

Login

Functionality New start parameter: nodb.
Disables database version check when parameter is set to true.
Components InterStaff.Desktop.Login.Crescendo.dll

Components

Functionality New control: Account code control
Components InterStaff.Desktop.Login.Crescendo.dll

Version 3.0.5

Desktop

Functionality Version changed to 3.0.5 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

Themes

Functionality Small user interface fixes
Components InterStaff.Desktop.Themes.dll

Crescendo Masters

Problem	Exporting Jobs could not be imported because of invalid xml.
Workaround	-
Solution	The export function will output correct xml.
Components	InterStaff.Desktop.Plugins.Crescendo.dll

Functionality	Filename changed
Components	InterStaff.ClickOnce.Publisher.exe to Setup.exe

Functionality	Logviewer stylesheets is now required.
Components	Setup.exe

Login

Functionality	Default username cleared when starting application directly.
Components	InterStaff.Desktop.Login.Crescendo.dll

Logviewer

Functionality User interface redesigned
Components InterStaff.Desktop.Plugins.Logviewer.dll

Version 3.0.7

Desktop

Functionality Version changed to 3.0.7 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

Login

Functionality Improved error handling.
Components InterStaff.Desktop.Login.Crescendo.dll

Publisher

Functionality EULA and language selector removed.
Components Setup.exe

Functionality Usage of '-' and '_' in server names is now allowed.
Components Setup.exe

Log viewer

Problem Opening an external logfile from the database threw an error when opening from the database view.

Workaround Open the external logfile from a different view.

Solution Error solved

Components InterStaff.Desktop.Plugins.Logviewer.dll

Functionality When in offline-mode; it is now possible to manually enter a database connection.

Components InterStaff.Desktop.Plugins.Logviewer.dll

Version 3.0.8

Desktop

Functionality Version changed to 3.0.8 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

Publisher

Problem Application name (read-only field) was not supplied when the publisher was executed without specifying a settings file.

Workaround Application name correctly supplied.

Solution Problem solved

Components Setup.exe

Version 3.0.9

Desktop

Functionality Version changed to 3.0.9 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

Publisher

Functionality Better version handling when publishing new Crescendo Portal.
Components Setup.exe

InterStaff.Server.Data

Problem Stored procedures where not executed properly.
Workaround None.
Solution Bug fixed.
Components InterStaff.Server.Data.dll

InterStaff.Desktop.Plugins.Logviewer

Problem Opening an external logfile multiple times caused an error.
Workaround Restart logviewer each time to open external logfile.
Solution Bug fixed.
Components InterStaff.Desktop.Plugins.Logviewer.dll

Functionality New stylesheet for 'events' view.
Components InterStaff.Desktop.Plugins.Logviewer.dll
Compact.xsl

Functionality Xsl stylesheet for Crescendo Portal logging updated
Components InterStaff.Desktop.Plugins.Logviewer.dll
PortalService.xsl

InterStaff.Remoting.Server

Functionality Service renamed to 'Crescendo Portal Server'.
Components InterStaff.Remoting.Server.exe

Version 3.0.10

Desktop

Functionality Version changed to 3.0.10 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

Publisher

Problem Application Name suffix was not stored in settings file.
Workaround Enter suffix manually on every new publish of the Crescendo Portal
Solution Bug fixed
Components Setup.exe

InterStaff.Remoting.Server

Functionality Service renamed to 'Crescendo Portal Server'.
Components InterStaff.Remoting.Server.exe

InterStaff.Remoting.Server.Configure

Functionality Service renamed to 'Crescendo Portal Server'.
Components InterStaff.Remoting.Server.Configure.exe

InterStaff.Desktop.Plugins.Logviewer

Problem Messageslog was saved as HTML instead of XML.
Workaround None.
Solution Bug fixed.
Components InterStaff.Desktop.Plugins.Logviewer.dll

Functionality New view for the new style database logging
Components InterStaff.Desktop.Plugins.Logviewer.dll

InterStaff.Interfaces

Functionality Support for LDAP / Single Sign-on
Components InterStaff.Interfaces.dll

InterStaff.Desktop.Login.Crescendo

Functionality Support for LDAP / Single Sign-on
Components InterStaff.Desktop.Login.Crescendo.dll

InterStaff.Desktop.Plugins.SystemConsole

Functionality Improved error reporting
Components InterStaff.Desktop.Plugins.SystemConsole.dll

Version 3.0.11

Desktop

Functionality Version changed to 3.0.11 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

InterStaff.Desktop.Plugins.Logviewer

Problem Messages-log only displays English texts. (regardless of language-setting).
Workaround None.
Solution Bug fixed.
Components InterStaff.Desktop.Plugins.Logviewer.dll

InterStaff.Desktop.Login.Crescendo

Functionality Improved error handling
Components InterStaff.Desktop.Login.Crescendo.dll

Version 3.0.12

Desktop

Functionality Version changed to 3.0.12 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

InterStaff.Remoting.Server

Functionality Service renamed to 'Crescendo Portal Server'.
Components InterStaff.Remoting.Server.exe

InterStaff.Desktop.Plugins.Logviewer

Problem Only single selections could be made.
Workaround None.
Solution Redesigned the selection dialog to support multiple selections. (i.e. display only warnings *and* errors.)
Components InterStaff.Desktop.Plugins.Logviewer.dll

Problem Date/time was reset each time when starting a new search.
Workaround Set the date/time again
Solution Date/time is now stored during the sessions.
Components InterStaff.Desktop.Plugins.Logviewer.dll

InterStaff.Desktop.Login.Crescendo

Functionality Improved error handling
Components InterStaff.Desktop.Login.Crescendo.dll

InterStaff.Desktop.Login.Crescendo

Problem Error message displayed wrong information when user was already logged on
Workaround None.
Solution Error message changed.
Components InterStaff.Desktop.Login.Crescendo.dll

Problem Serverlist was empty after a log off.
Workaround Restart the application
Solution Fixed.
Components InterStaff.Desktop.Login.Crescendo.dll

Functionality Translations updated
Components InterStaff.Desktop.Login.Crescendo.dll

InterStaff.Desktop.Plugins.SystemConsole

Functionality Translations updated
Components InterStaff.Desktop.Plugins.SystemConsole.dll

Publisher

Functionality Translations updated
Components Setup.exe

Functionality Tab order fixed.
Components Setup.exe

InterStaff.Desktop.Plugins.Crescendo

Functionality Translations updated
Components InterStaff.Desktop.Plugins.Crescendo.dll

Version 3.0.13

Desktop

Functionality Version changed to 3.0.13 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

InterStaff.Desktop.Plugins.Logviewer

Problem Small bugfix in Messages log.
Workaround None.
Solution fixed
Components InterStaff.Desktop.Plugins.Logviewer.dll

Version 3.0.14

Desktop

Functionality Version changed to 3.0.14 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

InterStaff.Desktop.Plugins.Logviewer

Functionality Redesigned Events and Messages Log.
Components InterStaff.Desktop.Plugins.Logviewer.dll

InterStaff.Desktop.Login.Crescendo

Functionality Small UI improvements
Components InterStaff.Desktop.Login.Crescendo.dll

InterStaff.Desktop.Login.SystemConsole

Problem The Status Viewer did not return all records.
Workaround None.
Solution Query fixed.
Components InterStaff.Desktop.Login.Crescendo.dll

Version 3.0.15

General

Functionality Microsoft .NET 4.0 (Full profile) is now required.
Components All assemblies

Desktop

Functionality Version changed to 3.0.15 for Crescendo Desktop compatibility.
Components InterStaff.Desktop.exe

Functionality Friendly server name is now displayed in the status bar. (the real server name and port will be shown as a tooltip.)
Components InterStaff.Components.dll

InterStaff.Desktop.Plugins.Crescendo

Problem Importing jobs from xml file resulted in error
Workaround None.
Solution Problem fixed
Components InterStaff.Desktop.Login.Crescendo.dll

InterStaff.Desktop.Login.SystemConsole

Problem When a job was deleted and started interactive again, the QueueManager assumed that this particular job was pending to be deleted.

Workaround Close and re-open the QueueManager.

Solution Problem fixed.

Components InterStaff.Desktop.Login.Crescendo.dll

Functionality Improved error handling in case of time outs.
Components InterStaff.Desktop.Login.Crescendo.dll

Functionality Details of a job now displayed in the main window, instead of a separate window.

Components InterStaff.Desktop.Login.Crescendo.dll
